

SOMETHING WONDERFUL.

The Internal Revenue Department collected and disbursed \$144,000, 560 during the fiscal year ending June 30, 1882, and not a cent was stolen or lost.

And now comes the Commissioner with his report for the year ending June 30, 1883, which shows \$144, 533,366 collected and disbursed, and every cent accounted for and turned into the Treasury.

Thus during the past seven years \$892,881,437 has been collected from internal revenue taxation and paid into the treasury without any loss by defalcation.

This is the answer of the Republican party, to the New York Sun's statement that it is a party of thieves and plunderers.

Government Lands Disposed Of.

The report of the Commissioner of the General Land Office for the fiscal year ending June 30, 1883, will be completed in a few weeks, and it is said will show an increase of twenty per cent. in the acreage of public lands disposed of during the year, being about 17,000,000 acres. Nearly half, or 8, 000,000 was sold in Dakota alone. This is about double the number of acres disposed of in Dakota the year before. The report for the year ending June 30, 1882, shows sales amounting to over 14,000,000 of acres, being an increase of 25 per cent. over the sales of the year before, and the largest disposition of public lands in any preceding year. The number of acres sold in Dakota during the fiscal years 1881 and 1882 was 4,500,000 acres. The acreage disposed of during the fiscal year just closed is unprecedented.

A Booming Town.

There has been completed the present season and now in course of construction, in business and commercial blocks, at Los Angeles, 56 houses, whose cost will reach \$900, 000. The metropolis of Southern California is making rapid strides in wealth and population.

The bridge across the Colorado River at the Needles will be ready for the passage of trains to day. The completion of this work enables the Central Pacific and Atlantic and Pacific Railroad to form a junction, and thus open a third trans continental route from San Francisco to the Eastern cities. It is doubtful, however, if through travel will be allowed to go by this route for some time. No negotiations have as yet been entered into between the two railroads looking to the arrangement of through traffic, and it is thought that no such arrangement will be made just yet. The bridge that has just been built is not the permanent bridge that will span the river at the Needles, the Atlantic and Pacific Railroad proposing to put in a very substantial iron structure.

All eyes are turned toward Ohio, and on her depends the future success, prosperity and greatness of the country. The Republicans have ever been true to themselves in an emergency, and they will carry the State where it rightly belongs, to the head of the Republican column. The people are not for a Democratic government—State or National—just yet.

There will be 401 votes in the next electoral college, 201 being necessary to a choice. The fifteen States of New York, Ohio, Pennsylvania, Illinois, Iowa, Maine, Massachusetts, Michigan, Minnesota, Nebraska, New Hampshire, Vermont, Wisconsin, New Jersey and Rhode Island furnish precisely the requisite number.

It is understood that the new ferryboat, now under construction at the Central Pacific yards in West Oakland, will be launched about the first of September. The new boat will be nine feet shorter than the Oakland, but of the same width. She will be named Piedmont.

It is announced that the Northern Pacific Railroad will take freight from the East to San Francisco for same price as is charged to Portland. The new road, it is said, will demand a pooling of freights by all of the transcontinental roads.

The Democrats have another hen on. The Carson Appeal states that Jewett Adams is a candidate for U. S. Senator.

During the dull season, now upon us, it is well to look sharp.

The Newest Bicycle.

The sporting world, that is, that portion of it addicted to the health-giving sport of bicycling, is considerably exercised over a Berlin bicycle, a recent invention which brings the horse into juxtaposition with the bicycle. The construction is entirely of iron and steel. There are two concentric rings, the inner moving three small cranks. The inner ring also contains the driver's seat. The outer ring is given additional momentum by the action of the inner. Beneath the driver's seat is an axle and two small cranks. These also impart increased velocity to the revolutions of the outer wheel, which is immediately acted upon by it. It is a system of reciprocity of incentive to motion. The three small cranks, once set in motion, increase in velocity until they become a power in the fastness of the outer wheel. The motion is stated to be dreamily even and the pace "tremendous." The inventor claims after a little to be able to go at a pace that will distance the time made by some of our best trotters—this, too, with a horse anywhere but in the front rank. It is claimed for this invention that it in nowise taxes the horse beyond the mere acts of motion.

The Battle Mountain Smelter.

From a reliable source the Messenger learns that the company who erected the smelter at that place, will not allow it to be sold under execution, but in a short time will send a competent agent to settle all claims against the company, and if after viewing the surrounding mines and interviewing the mine owners, the prospects are satisfactory to their agent, will start up the works. The only question is, as to the value of the large quantities of smelting ore in the vicinity, whether it can be reduced at reasonable rates and if it can be mined at a profit. There are large quantities of low grade ore in the vicinity and it is only a question of the cost of reduction. There are also several mines near, which have produced quantities of high grade galena ores, but whether the owners would feel justified in shipping to the works would be a question which would have to be settled between them and the agent of the smelting works. The Messenger is satisfied that if the agent is a practical man satisfactory arrangements can be made and sufficient ore obtained to keep the works running, but it will be necessary that the agent should be a man who thoroughly understands his business.

Arthur and Conkling.

Senator Conkling and ex-Secretary Boutwell left for the West and the National Park last Saturday morning, via Northern Pacific, in Villard's special car. They would not be interviewed on political subjects, but acquiesced in suggesting Arthur as a prominent candidate for President. Intimate friends of both parties say the meeting of the Conkling and Arthur parties in Yellowstone Park will serve as an occasion to fix the Republican Presidential slate for next year.

The death of Hon. Montgomery Blair removes the last member of President Lincoln's Cabinet who served through Lincoln's administration. Seward, Chase, Bates, Wells and Usher are all dead, leaving Simon Cameron, who, however, served but a few months in that Cabinet.

Cheering Arthur.

A New York dispatch of July 28th reads as follows: Shortly after one o'clock yesterday evening, a dense crowd congregated in Maiden lane, between Nassau and William streets. It had been discovered that President Arthur, who had just returned from Secretary Frelinghuysen's country seat in New Jersey, was in a well-known fishing tackle store. The crowd increased until the street was blocked up. It was an orderly throng and when the President stepped to the door to inspect in the better light the tackle he was purchasing, the crowd cheered and shouted. At the first cheer, the President lifted his hat, nodded and smiled, and a tremendous shout was a response to this salutation.

The O'Neil Case.

Would it not be well, under all the circumstances surrounding the murder of old man O'Neil, for Governor Adams to offer a large reward for the arrest and conviction of the parties implicated in the affair? A hope of gain might readily open the mouths of many persons who, without such inducement, are and may elect to remain silent.—Eureka Leader.

Deep Sea Soundings.

The deepest sea sounding ever made was in the Pacific ocean in 1874, near the entrance to Behring's Sea. The depth was 4,655 fathoms, and the cast was made from the United States school ship Thetis. The shallowest water in the middle of the Atlantic—731 fathoms—shows the existence of submarine mountains 10,556 feet high.

Paradoxical as it may seem, a married man in the theatrical world often is compelled to support another man's wife.

EVERGREEN MILLET.

At Papst Bros.' store can be seen some fine specimen stalks of the evergreen millet; it is seven feet high, and was grown on the red hills by Wm. Flowers. Last December M. Rapst sold a small quantity of this seed to several parties to experiment on. Mr. H. J. Hicks sowed some on his lot, and although it never had a drop of water except the rains, and was picked and tramped by geese, chickens and stock, yet it kept on growing and always looked healthy and green. From our observation of this specimen we believe it will revolutionize this part of the country. We would strongly advise each farmer to sow this coming season about an acre of it, and sow it early to get the first rains. Some stock can be grazed and fed on it, and others on something else; by that means its true value can be understood. To have a grass that will always keep growing and green will be of untold value in this dry region, and perhaps turn all the barren hills into fine green pastures. When young the leaves are broad and tender, and chickens like them. We hope that our large and enterprising farmers will sow some of it to give it a fair trial, and by ordering the seed early at Papst Bros., or the other stores, no one will be disappointed in getting the seed.—Orland Times.

FUN.

Kind words and bald heads never dye.

John Howard Payne revised: Be it ever so sweltering, there's no place like home.

A new Gatling gun has been invented which can be so elevated as to fire perpendicular into the air. It will be popular with Virginia editors.

Some notion of the terrible heat down East this Summer may be got from the fact that five ice houses were burned in Massachusetts in a single week.

A Charleston paper says single young men can live there on \$20 per month. They can live on less than that in New York City if they have mothers.

"No sir," she said; "I'll not be found in company with one of those Harvard students. I don't want everybody staring at me, and thinking I'm a ballet dancer."

The latest freak of fashion in New York is to have the feet photographed. It was tried in Chicago, but given up because it was impossible to get a whole foot into a focus.

"Remember who you are talking to, sir," said a father to his fractious boy; "I am your father." "Well, who's to blame for that?" asked young impertinence. "It ain't me."

This is the season of the year when a pretty woman, instead of remaining at home and making herself prettier by the aid of a white dress and airy Summer drapery, prefers to go to the seashore, where she makes herself ugly by appearing in bathing costume.

It requires a person with experience to transact any business successfully and satisfactorily; and there is as much difference in the flavor of beer drawn by one who understands his business and that of a novice as there is between rain water and genuine coffee. Charley Frisch, at the new Arcade saloon, opposite Lindley & Co.'s store is the champion in that line, and when you want a cool, refreshing glass of beer call on him.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-sw-lyr.

THE WEEKLY JOURNAL.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

Fine Job Work.

The JOURNAL job office has just received a large and fine stock of paper, cards, inks, etc., for job printing and is prepared to take orders for every description of work in the printing line. Only skilled workmen are employed in the job room and no inferior work is allowed to leave the office. Compensating prices are charged for every job and satisfaction guaranteed. Call and examine our specimens and leave your orders.

MISCELLANEOUS.

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate Some Things Which They Don't Understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folk," seldom look so long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around, broom or utensils in hand, up stairs down stairs and out-of-doors, doing that woman's work, which "is never done." Losses of loved wives and fair girls losses whose suddenness and unexpectedness astound these wooden-headed husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect. Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That back-ache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, the heart, or the lungs? End it at once by the application of BENSON'S CAPSINE POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary back-ache, give new strength to the body and fresh hope to the heart. No other plaster will do this. The Benson's Plaster, however, is not made to sell but to heal. It is a remedy which never broke its promise—and never will. Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word CAPSINE cut in the middle. Seabury & Johnson, Pharmaceutical Chemists, New York.

NEVADA THEATER, RENO,

ONE NIGHT ONLY.

Wednesday Evening August 8th

THE CALLENDERS!

In one of their

Monster Minstrel Festivals.

IN AND OUT OF TOWN.

What is Being Said and Done in a Small Way.

Congressman Cassidy left for Washington last Friday.

James Cross, the boss miner of Canadaria, was in Reno yesterday.

I. L. Regue, of Virginia, returned home yesterday from San Francisco.

Hon. Mat Canavan, of Storey county, was a passenger for San Francisco yesterday.

The north end stocks were steady and strong yesterday. Ophir jumped up to 4 1/2.

Indians are like sheep; they may be ruled by a Crook.

Superintendent Crawford calls for proposals for furnishing supplies to the Carson Mint for the ensuing year.

It is rumored that ex-Governor Kinkead will succeed Mr. Bryant as Minter and Refiner of the Carson Mint.

The brick and stone-work of the Wadsworth round-house is completed and the carpenters are at work on the roof.

Yesterday was "pay-day" in the U. S. Surveyor General's office. The roll for July aggregated nearly \$1,500.

Hon. Ross Lewers has sent in an application for the Postmastership of the Franktown office. The Lakeview office is discontinued.

The Carson Guard team is improving and is doing some remarkable shooting. Hope it will discount the California team.

Lieutenant Governor Laughton, dressed in the costume of a South African tourist, passed through Reno yesterday en route to Tahoe.

Parties desiring to attend the Caledonian picnic at Treadway's park next Saturday, can purchase tickets at Nasby's Bazar, on Virginia street.

A lodge of the A. O. U. W. was instituted last night at Verdi by Grand Master Workman Kinsley. His next attack will be at Lovelock's.

It is reported in San Francisco that R. R. Parkinson, of the Carson Tribune, will shortly start a daily paper at Eureka, Humboldt county, California.

Many of the farmers in the valley are taking the precaution to have their hay insured in the stack. Last Monday Longley and Boyanton took out policies on all their hay.

The Gas Company desire to notify consumers that the gas will be shut off to-day in order to lower the pipes on Commercial Row, and to make other repairs.

Sick and bilious headache, and all derangements of stomach and bowels, cured by Dr. Pierce's "Pellets"—or antibilious granules. 25 cents a vial. No cheap boxes to allow waste of virtues. By druggists.

The Battle Mountain Messenger says not a day passes that there is not inquiries for men to work in the hay fields. There seems to be a scarcity of laboring men in that vicinity during harvest, though good wages are offered for competent men.

Mrs. Seoville, who has been in the East for several months past studying the principles of Kindergarten schools, returned yesterday morning. She will probably be engaged by the Trustees to open a Kindergarten in the old school house near the Methodist church, in connection with the public school.

The small boys are disposed to criticize John Robinson's advertisements and circus bills, by saying that he promises too much and won't fill his promises. The small boy thinks he is swindled if everything on the bills is not performed. When the s. b. becomes older he will know that is the way of the world—and that fulfillment seldom comes up to promise.

JUSTICE COURT.

Young's Dispensation of the Blind Goddess Yesterday.

Daniel Toomey who was arrested Saturday on a charge of obtaining money under false pretenses, by personating a Catholic priest, appeared in court yesterday morning and gave a satisfactory account of himself and was discharged. The gentleman is undoubtedly, or at least has been, a priest but unfortunately on his arrival in Reno Friday morning, in a measure fell from grace and indulged too freely in the ardent.

N. S. Sherman, Sheridan's famous scout in the Shenandoah, appeared in Court and made his usual deposit of \$10, and thereby made the Court and officers happy. Sherman says he could not enjoy a visit to Reno without thus remembering his old friend Judge Young.

James Sullivan, who on Monday became too earnest in his discourse in the presence of the court and was locked up therefor, contributed \$20 to the county's exchequer and departed happy.

The case of Frank Backus against the Gas Company, was tried by a jury of six who returned a verdict for the plaintiff in the sum of \$65.

Better Than Caramels.

On a beautiful starry night it is a noble thing to be a woman and have a gorgeous lover, always handsome and always true, ready to protect, worship, and pay for caramels and ice cream. But there is something better than this. A man may be sincere, devoted, handsome, intellectual, and full of the exalting fire that once kindled, burns forever in a woman's heart, and yet fail to fill her cup with happiness to the golden brim. He may have every grace and every virtue, and still neglect to buy her tickets for Callender's Minstrels. This alone can satisfy her exalting heart. A word to the wise is not sufficient. It takes a whole newspaper to move some people. Young man your destiny is in your own hands.

A Pioneer Gone.

J. K. Kelly died in the Storey County Hospital last Monday. He was a Mexican Veteran, and formerly resided at Oroville, California, and was well known in many other places in that State. He had resided on the Comstock for many years. He was known as "Noisy Kelly," for the reason that he was one of the quietest men in the world. He was never known to speak above his breath, and half a dozen sentences per day was average work for him in the talking line. He was a member of the Pacific Coast Pioneers, and a man highly esteemed by all who knew him.

Sent to the Asylum.

William Woods, the unfortunate old man of whom mention has been made in the JOURNAL on several occasions heretofore, was yesterday examined by a committee of physicians on the question of insanity and was committed to the Asylum for the Insane. The charge of larceny, upon which he was arrested a day or two ago, will now be dismissed. It is to be hoped that a few months of treatment and care at the Asylum will brighten up his mind and bring him around all right.

The State Museum.

Hon. O. S. Young, State Superintendent of Public Schools, has asked John J. Valentine, Superintendent of Wells, Fargo & Co., for the franking privilege in the transportation of ores and other specimens to the State Museum at Carson. Similar institutions in California and the East have free transportation for material of scientific or historical interest.

Coming Match.

The Carson Tribune says the coming inter-State shooting match between Nevada and California is going to be a close contest. Seven of the California team on Sunday averaged over 89. People are coming from all over the coast to see the match, and the Tribune expects to record the best score ever made in the United States.

The Workmen.

At a special meeting of Riverside Lodge A. O. U. W., held at their lodge room Monday night, H. L. Fish and C. C. Powning were elected Representatives to a special session of the Grand Lodge to be held at Gold Hill, Friday, August 3d, to take action in the matter of securing a separate jurisdiction for Nevada, Utah, Wyoming, Idaho and Montana.

Caledonian Picnic.

Hear the bagpipe! On every side are heard notes of preparation for the annual picnic of the Caledonian Club, at Treadway's Park, next Saturday. Splendid and valuable prizes are offered this year as usual. Athletes are in daily practice getting up their muscles for all kinds of games. It will doubtless be the big picnic of the season. All Scotland is in the field.

Exploits of a Maniac.

The Reville recounts the exploits of a ferocious maniac in Austin twenty years ago. His name was William Cornwell, a partner in business with Wm. Mulligan. He first killed his partner and then started out to clean out the town with an ax. Rushing down the narrow side on Main street slashed away with his murderous instrument at anybody and everybody in reach. He succeeded in seriously wounding several parties before the danger could be realized. Among the victims was Nick Hammersmith, then a young athlete following his profession in that city, now an aged "homme du bien" in charge of the Wine House barber shop in Reno. Nick saved his head by stepping his right hand and arm to the descending blow. A fearful wound was caused but by careful nursing the useful member was saved. The maniac rushed on in his murderous flight, striking right and left until he was lost to sight. The next day his dead body was found on the road a mile beyond Jacobsville. His throat was cut from ear to ear and five stabs were found over his heart, evidently self inflicted.

Pacific Coast Guide.

A volume of over 225 pages has been issued under the title of the "Pacific Coast Guide and Programme of the Knights Templar Triennial Conclave," compiled and published by Ira G. Holitt, of San Francisco. As its name indicates it furnishes much information for the visitors who are coming from the East to attend the Conclave, as well as the local visitors, in pointing out the various places of interest, routes of travel, etc. A full programme of each day of the Triennial is given, as well as much other information of interest to Sir Knights.

A Little Off.

The statement is out that the alfalfa crop is unusually large on the Truckee Meadows this year, and that in some places three crops have been cut; and the fact is recorded as being something entirely new for Washoe county. Instead of being new, it is now, and has for years past, been a very common thing among the farmers all over the valley to harvest three crops of alfalfa a year. In years past it was the rule instead of the exception to cut three crops; the exceptions being where the third crop could be made more profitable for pasturage.

Distinguished Tourists.

A private car attached to the overland train went west yesterday morning containing Gov. Crittenden, Missouri's famous Governor, the gentleman who had the moral courage to bring to account the notorious James brothers and their cowardly band of outlaws, with a party of friends, including his half brother Gov. E. H. Murray, of Utah. Gov. Crittenden is making a hurried trip across the continent, and after visiting principal points of interest on the coast, accessible by rail, will return in about two weeks by the Southern route.

In Our Mind.

The Carson papers announce that the General Sherman and Roscoe Conkling parties now in the Yellowstone country, will visit Carson and Virginia on their way west. There is nothing in it. That distinguished party have arranged to stop over one day in Reno and will go thence direct to San Francisco. The party will arrive here at 8 o'clock in the morning and will be given a grand reception at the Riverside picnic grounds in the afternoon.

In Peace Prepare for War.

At every residence within the city limits there should be kept, within easy reach, a barrel of water, so that in case of fire it would be reached in a moment and the fire extinguished in its incipency. A few buckets of water properly applied in time might, in many instances, avoid a disastrous conflagration. One gallon of water saved the town of Tascara from destruction last week.

Mills on the Carson.

The water is gradually being turned back into the Carson river from the ranches above the mills. The Santiago mill has increased its daily work from thirty to fifty tons, and all others in the same proportion. Rains in the mountains have also added to the volume of water in the river.

The rise in Ophir, according to the Virginia Chronicle, is said to be due to an effort on the part of Sharon and Morrow to capture the control of the mine from the Nevada Bank party. The Ophir croppings and old upper levels are known to contain thousands of tons of good ore—rich ore. Sharon and Morrow are just now looking around for old nest-eggs like this, and there is much probability in the theory that these two long-headed old boys are at the bottom of the Ophir rise.

The most healthy and popular drink of the season is the ice cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

MOUNT ST. MARY'S
ACADEMY,
CONDUCTED BY—
SISTERS OF ST. DOMINIC,
RENO, NEVADA.

The course of study embraces the various branches of a solid and useful
education. The Scholastic Year is divided into two sessions of five months
each, beginning respectively on the first Monday in February, and closing
the last of June. Pupils are requested to enter at the opening of the session;
but, they will be received at any time during the year, their sessions dating
from the time of entrance. Public examinations are held annually. Private
Literary and Musical Rehearsals every month.

TERMS, INVARIABLY HALF YEARLY IN ADVANCE

Board and Tuition in English Branches, Washing and Ironing,
Plain and Fancy Needlework, Bed and Bedding, per Term,
including Tuition on Piano..... \$150
Vocal Music in Class..... 10
Vocal Music, Private Lessons..... 20
Drawing..... 20
Painting..... 30
French and German, each..... 15

No advance will be made by the Institution for Books, Stationery, Mate-
rials for Drawing, Fancy work or other incidental expenses of the pupils, un-
less funds for the purpose are deposited with the Treasurer. This regulation
is considered indispensable, and will be in all cases most strictly observed.

Each pupil must be provided with a Toilet Box and all necessary articles
for the toilet.

No particular uniform is required, but each pupil must bring four changes
of underwear, dark skirt for every day use, and one pair of blankets.

No deduction will be made for the withdrawal of pupils before the expir-
ation of the term unless in case of sickness.

All letters sent or received are subject to the inspection of the Sister
Superior. All Trunks, Boxes or Parcels must be prepaid.

For further particulars address,

SISTER SUPERIOR.
